Firma Asi Casa Design a fost înființată pentru a vă asigura dumneavoastră, clienții noștri, produsele celor mai mari producători de panouri murale și glafuri din polistiren din Turcia, la prețuri optime și oferindu-vă posibilitatea să alegeți dintr-o gamă largă de diverse plăci decorative din polistiren care rezistă cu stoicism trecerii timpului. Totodată vă oferă posibilitatea să obțineți în câteva minute spații moderne și decorațiuni realiste fără a face mizerie și fără costuri mari.

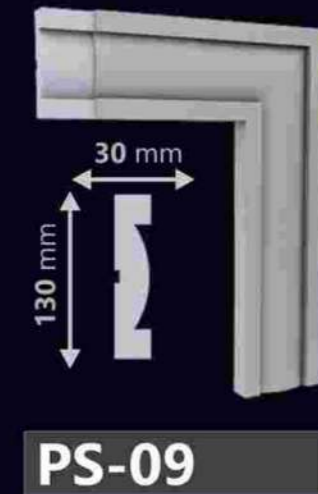

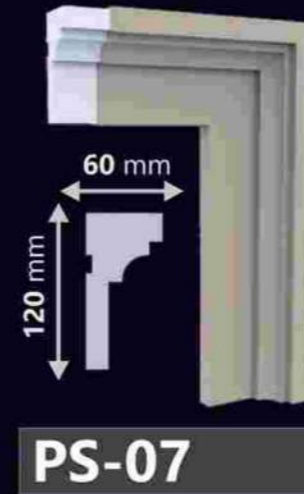

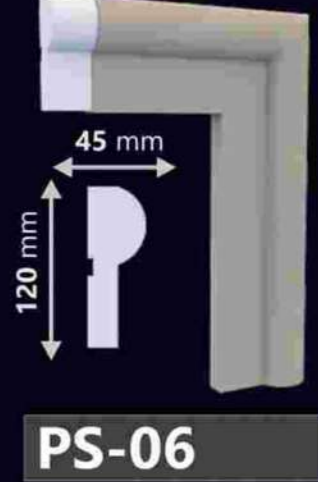

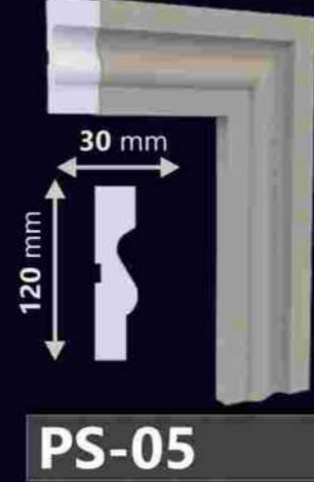

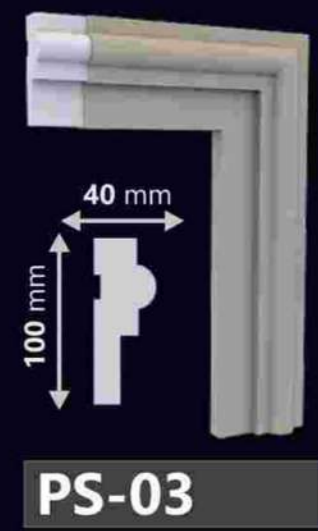

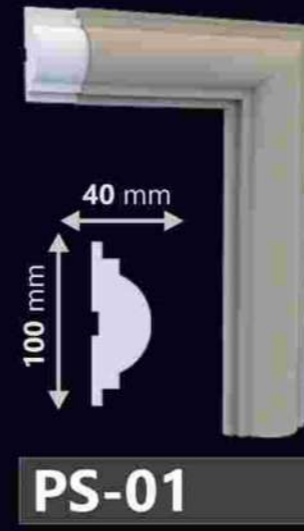

Panourile murale din polistiren Asicasa Design care sunt produse cu tehnologii de vârf sunt ușoare, au duritate ridicată și se aplică facil, astfel că avem plăcerea de a vă oferi o îngemănare modernă cu moda nemuritoare creată de aspectul cărămizilor și pietrei.

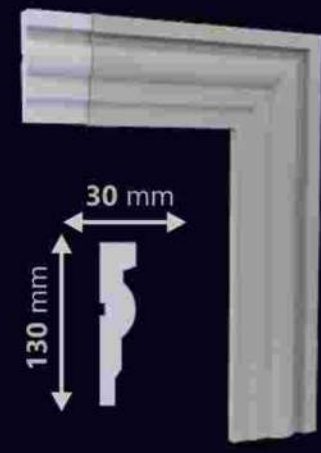

Materia primă a panourilor noastre este polistirenul EPS care în zilele noastre reprezintă încă elementul de bază al izolațiilor termice și al anvelopărilor. Adaptabilitatea panourilor noastre vă oferă posibilitatea de a realiza clădiri anvelopate la exterior sau la interior, dar și un aspect caracteristic.

Panourile murale Asi Casa Design au o diversitate de modele și caracteristici pentru a vă putea oferi un mediu așa cum v-ați imaginat, asigurând pe lângă aspectul decorativ și estetic, o izolație termică și fonică eficientă. Acestea sunt ușor de aplicat fiind concepute potrivit sistemului „aplică singur” pe orice tip de suprafață, indiferent dacă este sau nu vopsită. Panourile murale din polistiren au fost întărite suplimentar fiind acoperite cu un strat acrilic special ce nu dăunează în niciun fel sănătății, astfel obținându-se o duritate suplimentară. Este un sistem foarte economic, deoarece nu ocupă spațiu și îl puteți aplica cu ușurință chiar și dumneavoastră, fără a necesita niciun fel de echipament special. Pe lângă toate acestea, panourile murale din polistiren sunt și foarte rentabile, deoarece în timp nu își pierd niciodată capacitatea de izolator.

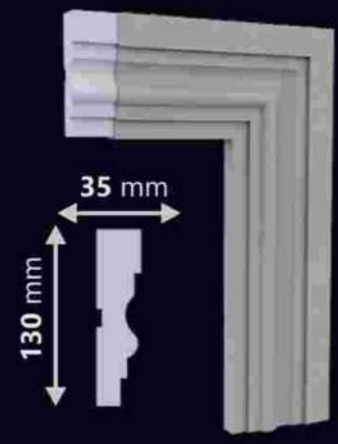

Suntem deosebit de fericiți să vă oferim în continuare produse pentru decorarea casei așa cum v-ați imaginat-o, la prețuri potrivite și care se adresează oricărui tip de buget, în condițiile în care pe zi ce trece adăugăm noi modele de panouri la cele existente.
